DRAFT AS OF 30 October 2013

Article VI, Section 9. NON-VOTING LIAISONS

1. The non-voting liaisons shall include:

a. One appointed by the Governmental Advisory Committee;

b. One appointed by the Root Server System Advisory Committee established by Article XI of these Bylaws;

c. One appointed by the Security and Stability Advisory Committee established by Article XI of these Bylaws;

d. One appointed by the Technical Liaison Group established by Article XI-A of these Bylaws;

de. One appointed by the Internet Engineering Task Force.

ARTICLE VII: NOMINATING COMMITTEE

**Section 1. DESCRIPTION**

There shall be a Nominating Committee of ICANN, responsible for the selection of all ICANN Directors except the President and those Directors selected by ICANN's Supporting Organizations, and for such other selections as are set forth in these Bylaws.

**Section 2. COMPOSITION**

The Nominating Committee shall be composed of the following persons:

1. A non-voting Chair, appointed by the ICANN Board;

*****

8. One voting delegate each selected by the following entities:

a. The Council of the Country Code Names Supporting Organization established by Article IX of these Bylaws;

b. The Council of the Address Supporting Organization established by Article VIII of these Bylaws; and

c. The Internet Engineering Task Force.; and

d. The ICANN Technical Liaison Group established by Article XI-A of these Bylaws;

Article XI, Section 2. TECHNICAL LIAISON GROUP

1. Purpose. The quality of ICANN's work depends on access to complete and authoritative information concerning the technical standards that underlie ICANN's activities. ICANN's relationship to the organizations that produce these standards is therefore particularly important. The Technical Liaison Group (TLG) shall connect the Board with appropriate sources of technical advice on specific matters pertinent to ICANN's activities.

2. TLG Organizations. The TLG shall consist of four organizations: the European Telecommunications Standards Institute (ETSI), the International Telecommunications Union's Telecommunication Standardization Sector (ITU-T), the World Wide Web Consortium (W3C), and the Internet Architecture Board (IAB).

3. Role. The role of the TLG organizations shall be to channel technical information and guidance to the Board and to other ICANN entities. This role has both a responsive component and an active "watchdog" component, which involve the following responsibilities:

a. In response to a request for information, to connect the Board or other ICANN body with appropriate sources of technical expertise. This component of the TLG role covers circumstances in which ICANN seeks an authoritative answer to a specific technical question. Where information is requested regarding a particular technical standard for which a TLG organization is responsible, that request shall be directed to that TLG organization.

b. As an ongoing "watchdog" activity, to advise the Board of the relevance and progress of technical developments in the areas covered by each organization's scope that could affect Board decisions or other ICANN actions, and to draw attention to global technical standards issues that affect policy development within the scope of ICANN's mission. This component of the TLG role covers circumstances in which ICANN is unaware of a new development, and would therefore otherwise not realize that a question should be asked.
4. TLG Procedures. The TLG shall not have officers or hold meetings, nor shall it provide policy advice to the Board as a committee (although TLG organizations may individually be asked by the Board to do so as the need arises in areas relevant to their individual charters). Neither shall the TLG debate or otherwise coordinate technical issues across the TLG organizations; establish or attempt to establish

unified positions; or create or attempt to create additional layers or structures within the TLG for the development of technical standards or for any other purpose.

5. Technical Work of the IANA. The TLG shall have no involvement with the IANA's work for the Internet Engineering Task Force, Internet Research Task Force, or the Internet Architecture Board, as described in the Memorandum of Understanding Concerning the Technical Work of the Internet Assigned Numbers Authority ratified by the Board on 10 March 2000.

6. Individual Technical Experts. Each TLG organization shall designate two individual technical experts who are familiar with the technical standards issues that are relevant to ICANN's activities. These 8 experts shall be available as necessary to determine, through an exchange of e-mail messages, where to direct a technical question from ICANN when ICANN does not ask a specific TLG organization directly.

7. Board Liaison and Nominating Committee Delegate. Annually, in rotation, one TLG organization shall appoint one non-voting liaison to the Board according to Article VI, Section 9(1)(d). Annually, in rotation, one TLG organization shall select one voting delegate to the ICANN Nominating Committee according to Article VII, Section 2(8)(j). The rotation order for the appointment of the non-voting liaison to the Board shall be ETSI, ITU-T, and W3C. The rotation order for the selection of the Nominating Committee delegate shall beW3C, ETSI, and ITU-T. (IAB does not participate in these rotations because the IETF otherwise appoints a non-voting liaison to the Board and selects a delegate to the ICANN Nominating Committee.)
