

# ICANN | RSSAC

Root Server System Advisory Committee

15 June 2018

To: ICANN Board Chair Cherine Chalaby  
ICANN President & CEO Göran Marby

From: RSSAC Co-Chairs on behalf of RSSAC

Dear Cherine and Göran:

RSSAC would like to acknowledge the ICANN team assigned to support RSSAC. Extensive work went into the creation of *RSSAC037: A Proposed Governance Model for the DNS Root Server System* and *RSSAC038: RSSAC Advisory on a Proposed Governance Model for the DNS Root Server System*. While this work was underway the normal activities of RSSAC still continued. The cadence of all these efforts would not have been possible without the dedication of the ICANN team. They have supported RSSAC in multiple ways: from backstage and onstage; as organizers and editors; in planning workshops and meetings; by making flight arrangements and ordering meals; in taking notes and making charts; and more. They supported RSSAC with the highest levels of integrity and dedication, which enabled the development of RSSAC037 and RSSAC038.

RSSAC extends its deepest appreciation and thanks to ICANN Senior Vice President of Policy Development Support, David Olive, for his relentless support and for the exemplary hard work of his team assigned to RSSAC:

Mario Aleman  
Kim Enger  
Andrew McConachie  
Carlos Reyes  
Kathy Schnitt  
Steve Sheng

The RSSAC looks forward to next steps in its proposal with the support of this amazing team.

With much appreciation and on behalf of RSSAC,

Tripti Sinha and Brad Verd  
RSSAC Co-Chairs
