#### **Re:** Request for Update on ICANN's Investigation of .WEB Contention Set and Request for Documents under ICANN's Documentary Information Disclosure Policy

Dear ICANN:

We write on behalf of our client, Afilias Domains No. 3 Ltd. ("Afilias"), regarding the .WEB contention set. As stated in past correspondence, Afilias has several concerns with the 27-28 July 2016 auction for .WEB, including (1) Nu Dot Co LLC's ("NDC") apparent change in financial position, ownership, or control after submitting its application to ICANN but prior to the auction for .WEB; (2) NDC's assignment of rights in its application for .WEB to Verisign, Inc. ("Verisign") prior to the auction in breach of the gTLD Applicant Guidebook ("AGB"); and (3) the serious competition issues raised by Verisign's acquisition of .WEB in violation of ICANN's Bylaws and the AGB.<sup>1</sup> As discussed below, we are writing to: (1) request an update on ICANN's Investigation of the .WEB contention set; and (2) request documents under ICANN's Documentary Information Disclosure Policy ("DIDP").

ICANN DIDP Request February 23, 2018 Page 2

### I. Request for Update on ICANN's Investigation of .WEB Contention Set

Pursuant to Afilias' concerns in late 2016, ICANN requested "additional information"<sup>2</sup> regarding the .WEB auction from Afilias, Ruby Glen LLC ("Ruby Glen"), NDC, and Verisign on 16 September 2016.<sup>3</sup> Afilias promptly responded to ICANN's request on 7 October 2016.<sup>4</sup> Since Afilias submitted its response to ICANN over sixteen months ago, it has received no further communications from ICANN in regards to the .WEB contention set. ICANN has failed to update Afilias regarding its investigations relating to .WEB.

ICANN is obligated by its Bylaws to maintain "open and transparent processes."<sup>5</sup> The principle of "[t]ransparency is one of the essential principles in ICANN's creation documents, and its name reverberates through its Articles [of Incorporation] and Bylaws."<sup>6</sup> Pursuant to its Bylaws, ICANN is required to (1) "[e]mploy open, transparent and bottom-up, multistakeholder transparent public development processes"<sup>7</sup> and (2) to "operate to the maximum extent feasible in an open and transparent manner and consistent with procedures designed to ensure fairness."<sup>8</sup>

Therefore, pursuant to ICANN's transparency obligations,<sup>9</sup> we respectfully request that ICANN provide an update on the status of ICANN's investigation of the .WEB contention set, including: (1) the steps (if any) taken by ICANN to disqualify NDC's bid on the basis that NDC violated the rules applicable to its application; and (2) the steps (if any) taken by ICANN to assess competition issues arising out of delegation of .WEB to Verisign.

We further request that ICANN take <u>no</u> action in regards to .WEB until Afilias can review and respond to the documents provided as a result of the below DIDP request; and that ICANN confirm that it has not, and will not, enter into a registry agreement for .WEB with

NDC until, to the extent Afilias seeks review of any decisions relating to .WEB through ICANN's accountability mechanisms, such mechanisms are completed. We nonetheless emphasize that Afilias reserves all of its rights to pursue any and all rights or remedies available to it in any forum against ICANN, NDC, or Verisign in connection with the delegation of the .WEB gTLD.

### **II.** Request for Documents Pursuant to the DIDP

Afilias further submits this letter to request documents from ICANN, pursuant to ICANN's DIDP, related to (1) ICANN's 30 September 2016 request for additional information sent to Ruby Glen, Afilias, NDC, and Verisign; and (2) any investigation by ICANN of NDC and Verisign in relation to .WEB.<sup>10</sup> The DIDP is "intended to ensure that information contained in documents concerning ICANN's operational activities, and within ICANN's possession, custody, or control, is made available to the public unless there is a compelling reason for confidentiality."<sup>11</sup> Pursuant to the DIDP, Afilias requests that ICANN provide the following documents:
