What is the **GDD Summit**?

The GDD Industry Summit provides contracted parties an opportunity to engage and address issues of mutual interest and importance. This forum enables direct and one-on-one interaction with members of ICANN's GDD team. It is not a typical ICANN meeting, nor is it solely intended for discussions of policy.

More than **400 participants from 32 countries** attended the 2018 summit in British Columbia.

Participants included:

- gTLD, Brand and Geo registries
- ICANN-accredited registrars
- gTLD resellers
- gTLD hosting providers
- Registry service providers
