

Maximal Starting Repertoire - MSR-4

Annotated Repertoire Tables, Non-CJK

Integration Panel

Date: 2018-11-9

How to read this file:

This file shows all non-CJK characters that are included in the MSR-4 with a yellow background. The set of these code points matches the repertoire specified in the XML format of the MSR. Where present, annotations on individual code points indicate some or all of the languages a code point is used for.

This file lists only those Unicode blocks containing non-CJK code points included in the MSR. Code points listed in this document, which are PVALID in IDNA2008 but excluded from the MSR for various reasons are shown with pinkish annotations indicating the primary rationale for excluding the code points, together with other information about usage background, where present. Code points shown with a white background are not PVALID in IDNA2008.

Repertoire corresponding to the CJK Unified Ideographs: Main (4E00-9FFF), Extension-A (3400-4DBF), Extension B (20000-2A6DF), and Hangul Syllables (AC00-D7A3) are included in separate files. For links to these files see "Maximal Starting Repertoire - MSR-4: Overview and Rationale".

How the repertoire was chosen:

This file only provides a brief categorization of code points that are PVALID in IDNA2008 but excluded from the MSR. For a complete discussion of the principles and guidelines followed by the Integration Panel in creating the MSR, as well as links to the other files, please see "Maximal Starting Repertoire - MSR-4: Overview and Rationale".

Brief description of exclusion types:

- Obsolete (historic, archaic),
- Limited or declining use (educational, threatened, nearly extinct),
- Symbol (characters classified as letters that are symbolic in nature),
- Numeric (characters used in numerical context),
- Punctuation (characters classified as letters that look like punctuation),
- CONTEXTJ (context - join controls),
- CONTEXTO (context - others),
- Unstable (encoding model changed),
- Deprecated (no longer in use, alternate code preferred),
- Technical use (phonetic, poetry),
- Religious use (annotation, cantillation),
- Homoglyph (digraph of x y),
- Deferred repertoire (7.0 repertoire not yet included in IANA tables),

The optional parenthetical annotations provided give further information where appropriate or available.
