Removing these 85 IDN languages/scripts will have no impact on registrants or registrars because all the remaining 17 IDNS will support all implemented second level IDN TLDs, and Infibeam will maintain the ability to offer registration of IDNs in 17 IDN languages/scripts listed below:

- Arabic
- Chinese
- Cuneiform
- Cyrillic
- French
- Greek
- Hebrew
- Japanese

Infibeam may introduce such IDNS in future which may include some of the IDNs removed subject to a future RSEP request.

Consultation

Please describe with specificity your consultations with the community, experts and or others. What were the quantity, nature and content of the consultations?:

Infibeam consulted with CentralNic Limited and examined the current zone file.

a. If the registry is a sponsored TLD, what were the nature and content of these consultations with the sponsored TLD community?:

Not applicable.

b. Were consultations with gTLD registrars or the registrar constituency appropriate? Which registrars were consulted? What were the nature and content of the consultation?:

Not applicable.

c. Were consultations with other constituency groups appropriate? Which groups were consulted? What were the nature and content of these consultations?:

Not applicable. Removing these IDN languages will have no impact on registrants and registrars because .OOO will continue to support all second level existing domain names and will continue to provide IDN second level domains in 17 languages and scripts.

Benefits of Service

Describe the benefits of the Proposed Service:

During the 2 years in which these 85 IDN languages were available there were no registrations and therefore Infibeam doesn't believe there is current or future demand for these IDNs.

Competition

Do you believe your proposed new Registry Service would have any positive or negative effects on competition? If so, please explain.:

We do not see any impact on competition from the proposed change.

How would you define the markets in which your proposed Registry Service would compete?:

Not applicable.

What companies/entities provide services or products that are similar in substance or effect to your proposed Registry Service?:

Many registry operators permit multiple language script registration in their TLDs. See <http://www.iana.org/domains/idn-tables> for a current list.

In view of your status as a registry operator, would the introduction of your proposed Registry Service potentially impair the ability of other companies/entities that provide similar products or services to compete?:

No.

Do you propose to work with a vendor or contractor to provide the proposed Registry Service? If so, what is the name of the vendor/contractor, and describe the nature of the services the vendor/contractor would provide.:

Yes. Infibeam intends to change its Registry Service Provider for the .OOO TLD to CentralNic. CentralNic will provide the technical functionality to permit the registration of domains names in the 17 IDN languages that will still be offered after the

85 IDN languages are deleted from Exhibit A.

Have you communicated with any of the entities whose products or services might be affected by the introduction of your proposed Registry Service? If so, please describe the communications.:

Yes, Infibeam has communicated with both CentralNic and some registrars for the .OOO TLD.

Do you have any documents that address the possible effects on competition of your proposed Registry Service? If so, please submit them with your application. (ICANN will keep the documents confidential).:

No.

Security and Stability

Does the proposed service alter the storage and input of Registry Data?:

Storage and input of Registry Data will not be altered.

Please explain how the proposed service will affect the throughput, response time, consistency or coherence of responses to Internet servers or end systems:

None.

Have technical concerns been raised about the proposed service, and if so, how do you intend to address those concerns?:
