

Amendment No. 2 to Registry Agreement

The Internet Corporation for Assigned Names and Numbers and ICM Registry SX, LLC agree, effective as of _____ (“Amendment No. 2 Effective Date”), that the modification set forth in this amendment No. 2 (the “Amendment”) is made to the 13 November 2014 .SEX Registry Agreement between the parties, as amended (the “Agreement”).

The parties hereby agree to amend Exhibit A of the Agreement by adding the following new text as a new Section 5:

[START NEW TEXT]

“5. Protected Marks – Adult Block Service

The Adult Block and Adult Block Plus is a service that allows trademark rights holders to block certain labels from registration. The blocked names must comply with the provisions described in Specification 5, Section 3.3 of the Registry Agreement. For the Adult Block Service, domain names blocked by the service will be an exact match of a label. For the Adult Block Plus Service, domain names blocked by the service will be an exact match of a label and confusingly similar variations of the trademark in several languages and scripts; for each label, variations are calculated based on confusable characters defined by Unicode Consortium for these languages. Labels which are blocked as a result of participation in the service may prevent other trademark rights holders or Adult Block Service holders from unblocking a domain name associated with the blocked label and registering the domain name.”

[END NEW TEXT]

The parties agree that, except as set forth in this Amendment and any prior duly authorized and executed amendments, the current terms and conditions of the Agreement will remain in full force and effect. All capitalized terms not defined will have the meaning given to them in the Agreement. This Amendment may be executed in counterparts, each of which shall be deemed an original, and all of such counterparts taken together shall constitute one and the same instrument.
